Campus Compact for New Hampshire
Academic Affairs Workshop

Achieving Institutional Effectiveness:
Fulfilling Our Promise to All Our Students
Michele Campagna, Ed.D.

WRITING STUDENT LEARNING OUTCOMES

Examples:

- First-year students who participate in the academic advising workshop will be able to identify the General Education courses required by their major for the coming semester
- Special admit athletes who complete the success workshop series will indicate on their education plans the standards they need to meet each semester to be in good academic standing.
- First-year residents of the Green Living Learning Community who complete the sustainable living in-service will express in their hall mural the values of their residence hall.

MEASURING STUDENT LEARNING OUTCOMES

Starts with a subject or target….

Measurement

90% of first-year students
80% of undeclared students
All first-year STEM students

→ 1. _____
2. _____

using…

survey
pre- & post-test
scores on a rubric
Portfolio

→ 1. _____
2. _____

External standards?

→ _____

Examples:

- **90% of first-year students who attend New Student Orientation will indicate that they understand the degree requirements of the University.**
- **80% of undeclared students who attend the Major Exploration program series will identify in their New Student Seminar journals majors in which they are interested.**
- **All first-year STEM students will demonstrate 25% gains on the pre- and post-leadership survey administered at the end of the summer bridge program.**
